Subject: START Rainy day activities

All,

In the likely event we are not excavating tomorrow, please use this time for the following tasks

1. Prepare and ship samples from Pile 2
2. Publish the latest update of Scribe
3. Provide access to me to view Survey 123 data regarding the Site
- 4 prepare current segment map

This work can be performed either in [redacted] trailer or at the Brookneal location. I recommend Brookneal because you will have more dry space to work. I think [redacted] has the key on the orange M&M chain. However, please sign in/out on Site and plan on attending the safety meeting

Please contact me with any questions
Thank you
Chris
